## CURRENT MACROECONOMIC AND FISCAL DEVELOPMENTS

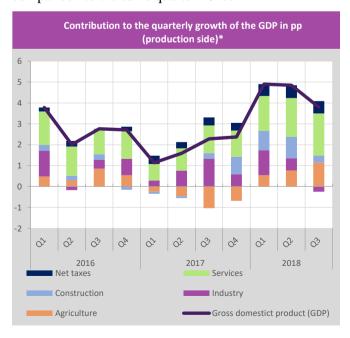

#### 1. Current macroeconomic developments

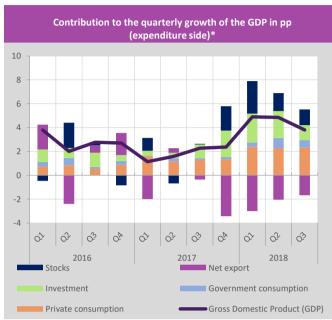

#### 1.1. Economic activity

Gross Domestic Product (GDP). In the third quarter of 2018, according to the SORS data, real economic growth of 3.8% was achieved. All production sectors except industry, gave a positive contribution to GDP growth. The services sector retains the role of the main growth driver, with a contribution of 2.0 p.p. Agricultural sector also significantly contributed by 1.2 p.p, which is a result of an extremely good production of cereals and industrial plants. Positive developments in the manufacturing industry did not compensate for the decrease in the production of the electricity sector in August and September, which resulted in a slight negative contribution of the industry to overall growth. Private consumption and investment activity are the most important sources of growth observed from the expenditure side, and they contributed with 2.3 p.p and 1.3 p.p. respectively. Continuation of the investment cycle and thus increased demand for capital equipment and intermediate goods, determine the negative contribution of net exports to overall economic growth.

In the third quarter of 2018, seasonally adjusted GDP has upped by 0.5% in comparison with the previous quarter.

According to the calculations of GDP, by production approach in constant prices (2010 reference year), category taxes less subsidies increased by 3.5% in comparison to the same quarter 2017.

\* Source: SORS; calculated in MoF.

Industrial production. According to the Statistical Office of the Republic of Serbia (SORS) data, industrial production in October 2018 has increased annually by 3.2%, while compared to the average industrial production in 2017 increased by 11.7%. The largest influence on industrial production growth in October 2018 compared to October 2017 had the divisions of: manufacture of basic metals, other manufacturing, manufacture of other non-metallic mineral products, manufacture of chemicals and chemical products and as well manufacture of fabricated metal products, except machinery and equipment.

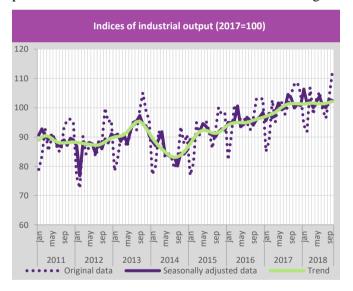

Observed by NACE Rev. 2, in October 2018, annual increase in production was registered in manufacturing (5.6%), while in the output of electricity, gas, steam and air conditioning supply and mining and quarrying a decline of 4.3% and 4.0% was registered. The largest increase in production was recorded in other manufacturing (73.3%), while manufacture of computer, electronic and optical products had decreased the most (40.4%).

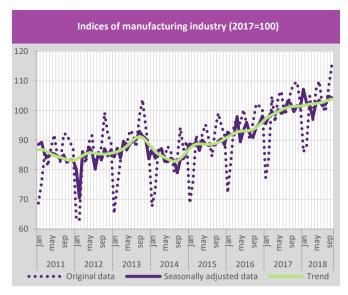

The industrial production volume in October 2018, in comparison to the same month in 2017, recorded an increase within 20 divisions, which accounts for 55% of total industrial production, while a decrease in 9 divisions, accounts for 45% of the total industrial production.

Observed by the **Main industrial groupings (MIGs)**, in October 2018, compared to October 2017, increase in the production was recorded in the production of intermediate goods, except energy (11.7%), durable consumer goods (4.1%), capital goods (3.1%) and non-durable consumer goods (0.8%), while a fall is observed in the production of energy (-2.6%).

In the first ten months of 2018 it was recorded an increase of industrial production of 2.4%. Observed by MIGs, the main contribution to the growth came from the production of intermediate goods, except energy (increase of 5.3%) due to the increase in production of metal industry, of other non-metallic mineral products, and as well paper and paper products. Also, a growth of 1.8% was observed in the production of energy, due to increase in production of coke and oil derives, and electricity. Increase in production of capital products of 2.8% is a result of increase in production of machines industry. Production of durable consumer goods has recorded growth of 2.8% due to increased output of the furniture industry. Decrease in production of tobacco products, basic pharmaceutical products and pharmaceutical preparations, and as well food products has influenced the decrease in output of the group of non-durable consumer goods (-0.5%).

The seasonal adjustment of the industrial production index for October 2018, compared to September 2018, indicates a decrease of 0.4% of the overall industrial production and a decrease of 0.2% of manufacturing.

According to the SORS data, in October 2018 stocks increased by 14.5% compared to October 2017. In October, stocks of wood and products of wood and cork, except furniture and stocks of machinery and equipment had the largest annual decrease of 16.1% each, while the largest growth was in the stocks of motor vehicles, trailers and semi-trailers (108.6%).

**Retail trade turnover.** Annual growth of the retail trade turnover in October 2018 increased by 9.2% in nominal and by 5.3% in real terms, compared to October 2017. Also, in October, turnover in real terms, increased by 12.0% compared to the average monthly retail trade turnover in 2017, while compared to previous month, increased by 4.3%.

Annual growth of the categories food, beverages and tobacco was 4.6% in nominal terms, while in real terms increased by 2.1%. Also, category non-food products, except automotive fuel increased in nominal and real terms by 9.3% and 9.0%, respectively. Motor fuel's turnover increased by 18.4% in nominal and by 5.4% in real terms.

In the period January–October 2018, compared with the same period of 2017, the retail trade turnover increased by 6.8% in nominal, and by 4.1% in real terms.

Increase in the retail trade turnover in nominal terms was observed in all the regions: Srbija – Sever by 9.2%, Region Vojvodine by 11.7% and Srbija – Jug by 9.2%, y-o-y. Observed in real terms, growth in the turnover was registered in all the regions, and the biggest increase of 7.7% y-o-y was recorded in the Region Vojvodine.

**Tourism.** Annual growth in the number of tourists' visits was registered in October 2018 (7.5%). At the same time, the number of overnight stays increased by 8.6% compared to the same month of the previous year. The number of domestic tourists' visits increased by 3.2%, while the number of their overnight stays increased by 7.5%, compared to the same month in 2017. At the same time, the number of foreign tourists' visits continued to grow by 12.1%, while their

overnight stays also increased by 10.3%. Share of the foreign tourists' visits and their overnight stays was 50.6% and 41.5%, respectively.

Most of the tourists in October 2018 originated from China, Bosnia and Herzegovina, Croatia, Slovenia and Montenegro (37.7% of the total number of foreign tourists' visits and 33.0% of total overnight stays), while the largest annual growth was registered in the tourists' visits from China. In October, spas were more visited than the mountains (14.6% and 14.4% of the total number of visits, respectively). On the mountains and spas most of the tourists were of domestic origin, while in city of Belgrade most of the tourists were foreigners (85.1% of the total number of visits). The largest number of overnight stays was recorded in Belgrade (30.0% of the total number of overnight stays of all tourists) and in spas (26.5%).

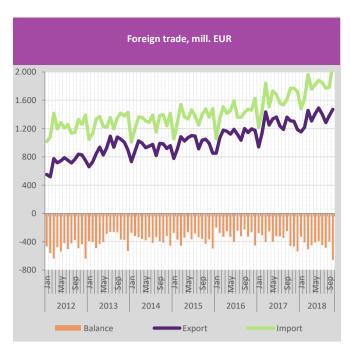

In the period January–October 2018, the number of tourists and their overnight stays totaled 2,976,070 and 8,219,556, respectively. The number of tourists' visits increased by 11.3%, while the number of their overnight stays decreased by 12.5%, compared to the same period of 2017. In this period, it was registered increase in the number of foreign tourists' visits by 14.5% and their overnight stays increased by 15.5%. At the same time, the number of domestic tourists' visits increased by 8.4% while their overnight stays increased by 10.8%.

#### 1.2. External Trade and Balance of Payments

External trade. In October 2018, it was exported EUR 1,472.5 million of good, which is an increase of 12.5% compared to October 2017. The biggest contribution to annual growth of the exports came from the exports of crop and animal products (3 pp), basic metals (2.2 pp), and export of chemical products (1.4 pp). Import of goods amounted EUR 2,129.5 million, which is an increase of 20.3% compared to October 2017.

Foreign trade deficit was 42.5% higher than in October 2017 and it amounted EUR 657.1 million, while 69.1% of the exports was covered by the imports.

Seasonally adjusted series shows that in October 2018 in comparison to the previous month, export incresed by 3.1% and import incresed by 4.4%.

In the period January-October 2018, exports and imports amounted EUR 13,603.2 million and EUR 18,079.6 million, respectively, which is an increase of 8.3% and 13.7%, compared to the same period of 2017. Trade deficit during the observed period amounted EUR 4,476.4 million which is 33.9% higher compared to the same period of the previous year.

According to the SITC sections, in the period January-October 2018, largest share in the exports came from the export of electrical machinery and apparatus (10.5%). Significant share in the exports also came from road vehicles, iron and steel, rubber products and non-ferrous metals, which including electrical machinery amounted for 32.5% of total exports. In the observed period, 27.8% of total imports came from import of petroleum and petroleum products, road vehicles, electrical machinery and apparatus, industrial machinery and equipment and iron and steel.

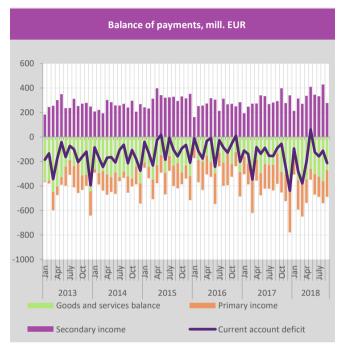

Positive trade balance in period January-October 2018 (EUR 1,378.3 million) was achieved by the following sectors: food and livestock, miscellaneous manufactured products, beverages and tobacco, animal and vegetable oil, manufactured goods classified chiefly by material (rubber products, iron and steel, non-ferrous metals).

In the period January-October 2018, largest external trade partners were EU countries on which related 67.2% of total exports and 60.8% of the total imports. In observed period 43.9% of the total exports were related to the trade with: Italy, Germany, Bosnia and Herzegovina, Romania and Russian Federation. Imports from Germany, Italy, China, Russian Federation and Hungary accounted for 43.7% of the total imports. Surplus of EUR 2,201.1 million was achieved in external trade with Bosnia and Herzegovina, Montenegro, Macedonia, Romania, Bulgaria, Slovakia, Croatia, Sweden, United Kingdom, Slovenia and Italy. The largest deficit was achieved in external trade with China (due to imports of telephones for network

stations and laptops), Germany and Russian Federation (due to imports of energy, mainly petroleum and gas).

Balance of payments<sup>1</sup>. In September 2018, the current account recorded a deficit of EUR 212.5 million, which is higher by EUR 122.3 million compared to the deficit in the September in 2017. Higher current account deficit was due to higher deficit on goods and services account. The goods deficit increased by EUR 167.1 million, while the services surplus increased by EUR 36.1 million.

In September 2018, net inflow of foreign direct investments amounted EUR 152.8 million, while net outflow of portfolio and other investments amounted EUR 35.4 and 87.4 million, respectively.

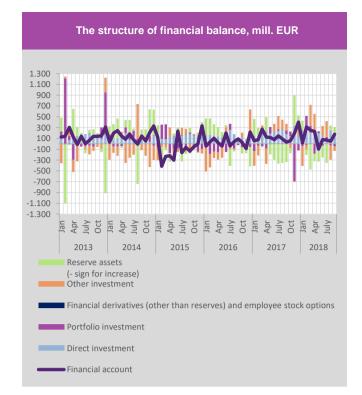

In the period January-October 2018, the balance of payments position of the country was deteriorated. The current account deficit in this period amounted EUR 1,502.2 million and it was higher by EUR 193.7 million compared to the same period of previous year, due to higher deficit on goods and services account. Decrease in primarly income deficit and increase in secondary income surplus had the opposite effect.

The trade deficit increased by EUR 890 million, while the surplus in the services trade increased by EUR 120.8 million. The primary income deficit decreased by EUR 150.8 mill, mainly due to lower outflows of investment income. The secondary income surplus increased by EUR 424.6 million compared to the same period in previous year, mostly due to the higher personal transfers inflow (by EUR 414.5 million net).

<sup>&</sup>lt;sup>1</sup> Since April 2014, Balance of Payments of the Republic of Serbia is being presented according to the Balance of Payments Manual and international investment position, VI edition of the International Monetary Fund (BPM6).

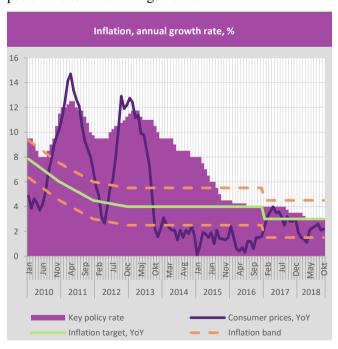

Net inflow of foreign direct investments amounted EUR 1,837.4 million, which is an increase of EUR 56.4 million compared to the same period of previous year. Portfolio and other investments recorded net inflow of EUR 114.7 and 297.6 million, respectively.

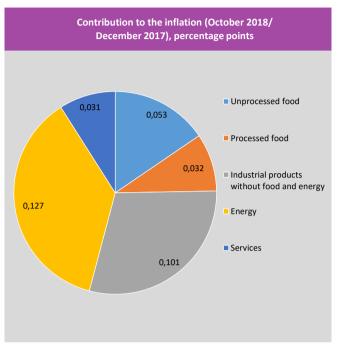

#### 1.3. Inflation

Annual inflation in October 2018 was within the limit of the NBS target tolerance band  $(3\%\pm1.5~pp)$ . In this period inflation totaled 2.2%, which was mainly influenced by the price increase of vegetables, tobacco, petrol and tourists arrangements.

Consumer prices in October 2018 increased compared to previous month by 0.3%, mainly because of increase in vegetables and energy products.

Observed by main groups of products and services, yo-y growth of consumer prices in October was registered within the following groups: Food and non-alcoholic beverages (1.4%), Alcoholic beverages and tobacco (5.1%), Housing (1.5%), Health (1.9%), Transport (6.0%), recreation and culture (2.9%), education (0.5%) and restaurants and hotels (1.2%).

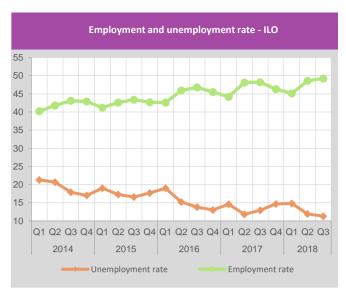

Core inflation, measured by the increase of the consumer prices from which is excluded the increase of energy, food, alcohol and tobacco in October increased by 0.3%, while increased by 1.0%, y-o-y.

#### 1.4. Labor market

According to the Labor Force Survey developments on the labor market in Q3 2018 unemployment rate was 11.3%. At the same time, the number of employees increased by 1.6%, with the number of formal employees increasing by 3.4% while the number of informal employees decreased by 4.7%.

According to data from the CROSO registry average number of formally employed in October 2018 increased by 3.7%, y-o-y, which is entirely the result of growth in employment in the private sector (6.3%), while in the public sector decreased by 2.0%. In the first ten months, number of employees increased by 3.8% y-o-y. At the same time, growth in employment was recorded in manufacturing industry, trade, etc, which is in line with the favorable economic developments in these sectors.

According to the National employment agency data (NEA) at the end of October number of unemployed persons actively seeking employment totaled 553 thousands which is compared to the same month of the previous year decrease by 10.7%, while in the first ten months decreased by 10.3%.

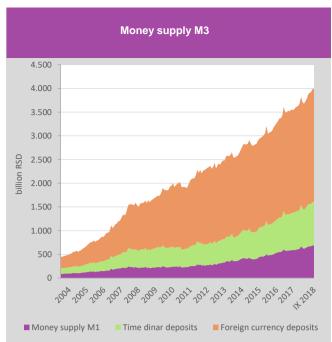

Salaries. In September 2018, the average net salary increased by 3.3%, y-o-y, in real terms. Observed by activities growth of salaries, was influenced the most by the trade and manufacturing industry. Public sector salary growth was a result of, first of all, growth in salaries in health, administration and education. In the period January — September 2018, the average net salary increased by 4.2%, y-o-y, in real terms, with increase of salaries at the same time in private and in public sector. The increase in salaries in first half of the year was also influenced by an increase in the minimum labor cost per working hour from RSD 130 in 2017 to RSD 143 starting from January 2018.

**Pensions.** Average paid pension in October 2018 increased in real terms compared to same month of previous year by 8.2%. At the same time, the total number of pension beneficiaries decreased by 0.2%.

#### 1.5. Monetary developments

In October 2018, NBS kept it's key interest rate to the level of 3.00%.

Through October, banks as largest single investors in state treasury bills didn't change their invested funds on that basis. Compared to the same month in 2017 banks increased their invested funds by RSD 97,6 billion.

At the end of October 2018, compared to same month of 2017 bank loans to economy registered increased by 2.4%, while loans to households increased by 11.6%. At the same time bank deposits registered growth of 8.2%. In structure of loans to economy by destination biggest share at the end of September had loans for current assets and investment loans (47,1% and 30.6%, respectively), with yearly increase of loans for current assets by 4.4% and increase of investment loans by 4.4%. At the same time at loans landed to households, biggest share had cash loans (40.1%) with yearly growth of 19.7% and housing loans (37.6%), with yearly growth of 6.4%.

In structure of bank sources of funds dominant share had borrowed sources. At the end of October 2018 in total fund sources borrowed sources share was 82.5%, which is an increase of 0.7 p.p. y-o-y, while in comparison to the previous month increased by 0.1 p.p. In currency structure of funds, foreign currency sources share was 52.9%, and compared to previous month increased by 0.7 p.p, while compared to the same month of previous year increased by 1.7 p.p.

NBS foreign exchange reserves increased by EUR 377.9 million compared to previous month, while compared to the same month of previous year increased by EUR 789.9 million and totaled EUR 11.6 billion at the end of September 2018. Net inflows were for their major part attributable to FX reserve management and the net positive market effects, while a further boost to FX reserves came from donations, usual bank activities with regard to FX required reserves and net inflows on other grounds. Level of NBS foreign exchange reserves was sufficient for coverage of 193% of M1 monetary aggregate and for coverage of around six months of imports of goods and services.

Household foreign currency savings at the end of October 2018 compared to previous month increased by EUR 64.0 million and totaled EUR 9.8 billion.

Compared to same month of previous year foreign currency savings increased by EUR 558.8 million.

Developments on the foreign exchange market in October 2018 compared to previous month were characterized by nominal and real appreciation of dinar against Euro by 0.1%, each. In comparison to the same month of 2017, foreign exchange rate recorded nominal and real appreciation of 0.8% each. In order to mitigate extensive daily oscillations of exchange rate, NBS throughout October intervened on the foreign exchange market by selling EUR 30 million.

#### 1.6. Financial markets

In October 2018 Belgrade stock exchange registered total turnover of securities in amount of RSD 7,016.1 million, from which turnover of shares and Republic of Serbia bonds (RS bonds) totaled RSD 688.8 million and RSD 6,327.3 million, respectively. In comparison to the same month of previous year, total turnover increased by 40.1%. Total number of transactions decreased from 5,130 in October 2017 to 4,260 in the same month of 2018.

Total market capitalization at the end of October 2018 amounted to RSD 519.3 billion and increased by 0.7% compared to previous month, while compared to same month of previous year decreased by 4.2%.

In October 2018 foreign investors share in total turnover accounted for 8.09% and increased by 0.49 p.p. in comparison to same month of 2017. Share of foreign investors in turnover of shares increased by 0.48 p.p. and amounted to 43.48%, while the share of foreign investors in turnover of RS bonds amounted to 4.24%, which represents increase of 1.11 pp compared to October 2017.

During October 2018 on Belgrade stock exchange index BELEXline registered increase in value of 0.3% and totaled 1,538.35 index points, while the value of BELEX15 index increased by 1.8% and totaled 740.24 index points. Compared to same month of 2017, index BELEXline decreased by 4.0%, and index BELEX15 increased by 1.3%.

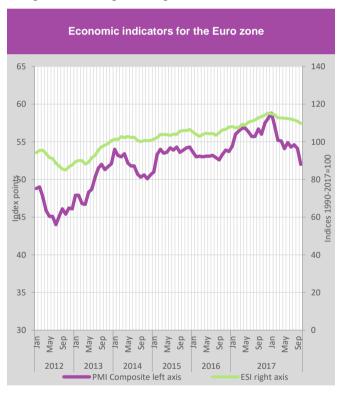

#### **International environment**

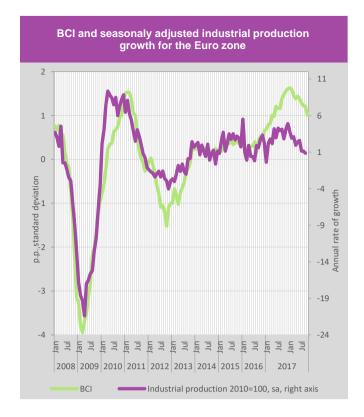

According to the Eurostat's flash estimation, GDP growth in Q3 2018 in the euro area and the EU upped by 1.7% and 1.9%, respectively, compared to Q3 2017, while comparing to the previous quarter increased by 0.2% and 0.3%, respectively. According to the EC outlook, the continuation of the recovery of the euro zone is foreseen. Projected growth in the medium-term period will slow down from 2.0% in 2018 to 1.7% in 2020, while the average yearly inflation will amount to 1.7% in each year until 2020. Growth forecast is based upon high contribution of private consumption and increase of investment and exports in the following period. Unemployment is still decreasing, while shares of the fiscal deficit and public debt in the GDP continues to decline. Negative risks to the projections

are more emphasized, related to uncertainty of monetary policy and trade in the world.

Average **prices** of agriculture products have increased by 0.8% in October compared to the previous month, while the **food prices** increased by 0.7%. Average **base metals prices** in October increased by 1.8% compared to previous month, while the price of iron ore recorded an increase of 7.3%, and cooper increased by 2.8%. According to the World Steel Association, world production of steel in October 2018 increased annually by 5.8%, while in China by 9.1% (slightly more than a half of World production). In the group of **precious metals**, the price of gold has increased by 1.4% in October, while the price of silver increased by 2.3%.

Value of the Composite PMI index in October amounted to 52.0 ip (down by 2.1 i.p. compared to previous month), due to the slowdown in growth of manufacturing output. In October, the Economic Sentiment Indicator (ESI) has declined by 0.9 i.p. in the EU28 (110.4 ip) while in the euro area has declined by 1.1 ip (19.8), compared to previous month.

At the end of October 2018, the unemployment rate in the euro area reached 8.1%, which is the lowest unemployment rate since November 2008. At the same time, unemployment rate in Germany was 3.3% and in EU28 and Italy it was 6.7% and 10.6%, respectively. At the same time, according to the data of the Russian Statistical Office, in the Russian Federation the unemployment rate was 4.7%.

Trend of inflation has timidly accelerated during October, when the euro area and the EU28 registrated an inflation of 2.2%, each. At the same time in Germany was observed inflation of 2.4%, while in Italy of 1.7%. Observed by categories the largest increase was in the prices of: energy, services, food and alcohol and tobacco. In Russia, the annual inflation in October reached 3.5%.

In October, ECB decided to keep the interest rate at record low level of 0%, while the reduced scope of the program of quantitative easing is continued (15 billion euro until the end of December 2018). In November, the FED has kept key interest rate to an interval of 2.00% to 2.25% range.

According to the OPEC data, the price of oil type Urals has amounted to 80.16 \$/barrel in October (up by 2.1% compared to previous month). Since the beginning of the year, the price upped by 39.8% compared to the same period in 2017 (to 71.79 \$/barrel).

# 2. Current fiscal developments <sup>2</sup>

In January-October 2018, compared to the January-October 2017 General Government revenues recorded nominal and real growth. Total public revenues (incl. donations) have recorded a real rise by 3.9%.

Current revenues were 3.8% higher, in real terms. Donations have achieved a real growth of 31.7% compared to January-October previous year.

Within the current revenues category, in January-October 2018 in real terms, tax revenue increased by 3.5% while non-tax revenues recorded 5.9% real rise.

Within tax revenues all tax categories recorded nominal and real growth compared to January-October 2017.

Personal income tax. The level of personal income tax revenue in January-October 2018 achieved nominal increase by 6.4% and 4.3% real increase, compared to the January-October previous year. Because most of the income tax is comprised from wage tax (approx. 73.1%), its dynamics predominantly influences the overall personal income tax revenue. In January-October 2018 nominal increase of wage tax revenue was 5.7%. Since January 2017, the distribution of revenue from wage tax between local government and the Republic has changed to 74:26 in favour of municipalities, 77:23 in favour of cities and 66:34 in favour of the City of Belgrade. Other types of personal income tax receipts (tax on revenue of self-employed persons, tax on royalties, taxes on rental income, annual income tax etc.) increased nominally by 8.5%.

Corporate income tax. In January-October 2018 compared to the January-October 2017, the nominal level of corporate profit tax (which shares at the moment, around 89.9% of total corporate income tax revenue) increased by 1.7%, while the real fall in the same period was 0.4%. The movement of this category is subject to the profitability of companies in the previous year. The final obligation arises at the end of the year, however, income tax shall be paid during the year, according to the amount of tax liability for the previous year. The deadline for the obligation is end July. Revenue from other types of profit tax recorded a nominal fall of 4.7%<sup>3</sup>, while the real fall was 6.6%.

Value added tax. VAT revenues were by 2% higher in real terms in January-October 2018, compared to January-October 2017. Its nominal growth was 4%. Net domestic VAT fell nominally by 24% and by

25.5% in real terms in the observed period. Gross VAT collected was 4.5% higher in real terms, and posted a nominal increase of 6.6% compared to the same period of previous year. Total amount of VAT refunds was by 22.2% higher nominally and by 19.8% higher, in real terms, compared to January-October 2017, due to acceleration of VAT refunds. Exports recorded 5.1% increase in dinars. VAT on imported goods, on the other side, recorded 11.6% nominal rise and 9.4% real increase. In the observed period imports increased by 10.3%, in dinars.

Excises. Excise collection in January-October 2018 increased nominally by 2.0% while the real amount of excise taxes collected remain unchanged. Revenue from excise on oil derivatives increased nominally by 3.9% and were by 1.8% higher in real terms. Excise Law regulates the excise duty reimbursements for oil used for transportation purposes, for inland waterway cargo transport, for agricultural purposes, heating and industrial purposes. Revenue from excise on tobacco products fell by 2.9% in real terms, and by 1% in nominal terms. Revenues from excises on alcoholic beverages recorded real increase of 1%. Excise on coffee products increased by 5.4%, in real terms. Excise tax on electricity consumption recorded real fall by 0.7% in January-October 2018 compared to the same period of previous year.

Customs. The level of customs revenues is the result of imports in the period under review, its structure, exchange rates, as well as the implementation of the Stabilization and Association Agreement with the EU, with which Serbia carries out the largest part of foreign trade, as well as the free trade agreements with EFTA and Turkey. The gradual reduction and abolition of customs tariffs has resulted in reduced revenue on this basis. With the completion of the process of harmonization with the EU there has been a stabilization of revenue on this basis, and nominal growth afterwards. Nominal increase in customs revenues in January-October 2018 compared to January-October 2017 was 9.6%, while real rise was 7.5%.

Other tax revenue. Other tax revenues increased by 2.7%, in real terms, in January-July 2018, compared to the same period of previous year. Property tax, which is attributed to local authorities, accounts for the biggest share of other tax revenue. Property tax revenue was by 4.4% higher nominally, while in real terms it was 2.3% higher than the same period previous year. Other tax revenue (motor vehicle tax, firearms tax etc.) recorded nominal increase of 5.1% and real increase of 3.1% compared to the same period of 2017 year, mostly due to increase of revenues from motor vehicles registration.

**Social contributions.** The real level of revenue from social contributions in January-October 2018 was by 7% higher compared to the January-October 2017.

Revenue, expense and result of the consolidated general government are presented in chapter II Fiscal Developments, Table 1.A more detailed overview of revenues and expense by governmental levels can also be found in tables in chapter II Fiscal Developments.

Other profit taxes include tax on distributed profit, tax on corporate profit from interest, royalties and capital gains paid to non-residents and profit tax from lease of movable and immovable property.

Nominal increase in contributions revenue in the observed period was 9.2%.

In January-October 2018, collected contributions paid by self-employed persons were by 10.8% higher nominally, while contributions paid for pension and disability insurance for farmers were nominally by 13.6% lower, compared to the January-October previous year. Revenues from contributions for pension and disability insurance for employed persons increased nominally by the rate of 9.3%, revenues from military contributions increased by the rate of 10.5%, revenues from health security increased nominally by 9.1%, while unemployment insurance contributions increased by 9.2%.

In January-October 2018, compared to the January-October 2017, the Government spending posted a nominal increase of 8.4%. In the observed period total public expenditure posted a real increase by 6.3%.

Among total public expenditure in January-October 2018 current expenditure recorded 6.2% nominal increase and 4.1% real increase compared to the January-October 2017.

Expenditures for employees. In January-October 2018 General Government wage bill was by 7.7% higher, in real terms, while it's nominal increase was 9.8% in comparison with January-October 2017. The nominal movements at particular levels of government were as follows: the Republic budget expenditures increased by 8.4%, while Local Governments recorded a 9.3% nominal growth.

The movement of payroll expenditures is the result of regular indexation of individual earnings during the year, employment trends in the state and dynamics of other expenses for employees (social benefits, rewards, severance package, reimbursements etc.), but also due to freezing of new hiring. In 2017 the new economic measures came into force and included increasing salaries for the employees of the Ministry of Interior, Ministry of Defense, Security Information Agency, Administration for the Enforcement of Penal Sanctions - only for civil servants and employees in penal and correctional institutions and justice by 5%; primary and secondary education by 6%: higher education by 3%: scientific research institutions - researchers (except for university researchers) and supporting staff by 5%; cultural institutions by 5%; social and health care by 5%, and preschools by 6%.

**Procurement of goods and services.** Real level of expenditure for procurement of goods and services in January-October 2018 was higher by 11.5% in comparison with January-October 2017 while it's nominal increase was 13.8%. The largest growth was recorded at PE Roads of Serbia, local level of government (cities and municipalities), Republican budget, and Health Fund.

**Repayment of interest.** Funds spent for the repayment of interest in January-October 2018 are by 11.5 lower in real terms compared to same period previous year. Decline of interest expenditures both on domestic and foreign debt was recorded at all levels of government. Movement of these expenditures is conditioned by the repayment plan for principal and interest on debt payoff. Interest are mostly paid from the state budget. Interest expenditures increased its share in total expenditures significantly during recent years. This was due to the growing financing needs, currency structure of the debt and interest rates. At the end of 2016 and beginning of 2017 the public debt stabilized and debt to GDP ratio trend reverted, and together with favorable conditions on financial markets, it will reduce the share of these expenditures.

Subsidies. Subsidies paid in January-October 2018 were 1.5% higher in real terms, compared to the January-October 2017. In January-October 2018 the largest part of subsidies paid from level of Republic belongs to: PE Roads of Serbia, economy sector and agriculture sector.

Social assistance and other transfers to households. Real level of transfers to households was higher by 1.7%, in January-October 2018 compared to the same period a year before. Expenditures for pensions recorded a real growth by 2.5% and nominal increase by 4.6%. In 2017 pensions were raised by 1.5%. Unemployment benefits recorded nominally fall by 2.5%, while it's real fall was 4.4%. Expenditure for sick leave recorded nominal increase by 11.3% and real increase by 9.1%. Social assistance recorded nominal increase of 2.3% while other categories of transfers to households that include various forms of social assistance and transfers from the local and provincial level<sup>4</sup> recorded nominal fall of 4%.

Capital expenditures. Capital expenditure in January-October 2018 were higher in real terms by 57.3% and by 60.5% in nominal terms, compared to the January-October previous year. The execution of capital expenditures in January-October 2018 is higher than planned for a given period by 11.6%.

Activated guarantees. In accordance with the new methodology, applied in 2015, activated guarantees which are paid from the state budget are recorded as expenditures (excluding guarantees for PE Roads of Serbia listed as repayment of foreign debt). In January-October 2018 these expenditures were by 28% lower nominally and by 29.4% lower in real terms compared to the same period previous year.

<sup>&</sup>lt;sup>4</sup> Other transfers to residents include payments made by mandatory social insurance organizations for different purposes: care for the elderly, funeral costs, medical aid etc.

*Net lending.* These expenses have shown a nominal and real fall in the observed period, by 46.2% and 47.2%, respectively. Some forms of incentive measures for the economy and the households are also included within this category.

In January-October 2018, General Government posted a RSD 63.7 bln consolidated surplus. In January-October 2017, General Government posted a RSD 95.3 bln consolidated surplus.

Republican budget posted RSD 61.1 bln surplus. Pension Fund achieved RSD 7.8 bln deficit, Health Fund posted deficit of RSD 1.0 bln, Military Health Fund was in balance, Unemployment Fund of RSD 1.7 bln surplus, while Road Fund (PE Roads of Serbia and Koridori Srbije Ltd.) posted RSD a 3.6 bln deficit. Local Government (cities and municipalities) posted a RSD 10.5 bln surplus, while AP Vojvodina surplus stood at RSD 3.0 bln.

Central Government posted a RSD 50.2 bln surplus, while Local Government surplus stood at RSD 13.5 bln

<sup>&</sup>lt;sup>1</sup> Since September 2010 methodology for the external debt statistics has been changed so that the external public debt includes obligations under the IMF SDR allocation, which was used in December 2009, as well as capitalized interest to Paris Club creditors, while the loans concluded before December 20, 2000, under which the payments have not been effected, are excluded from the external debt of the private sector.<sup>2</sup> NBS has revised the data to the external debt since 2009. <sup>3</sup> According to the new methodology of GDP - ESA 2010. Due to the conducted revision of GDP by the RZS for the period 2015-2017 data are not comparable with data before this period. SORS will publishe missing data during 2018 and 2019

<sup>&</sup>lt;sup>1</sup> New methodology for salaries, which is applied from 2009. as SORS extended coverage of observation units. In calculation of average salaries, beside salaries paid to employees in enterprises, institutions and organizations, into account are taken also salaries paid to entrepreneurs, from January 2018 the average salary is calculated on the basis of data from the Tax Administration records. <sup>2</sup> Every year in Health and social work section half of salary is paid in December and another half in January. <sup>3</sup> Since 2012 with professional army servicemen.

# **METHODOLOGICAL EXPLANATIONS**

# ECONOMIC, FISCAL AND STATISCS OF PUBLIC DEBT

1. Economic statistics (tables in Chapter I, Macroeconomic Developments) are based primarily on the statistical methodology and data provided by the Statistics Office of the Republic of Serbia, National Bank of Serbia, National Employment Agency, Privatization Agency, Belgrade Stock Exchange, Pension and Disability Insurance Fund of the Republic of Serbia etc.

Economic Statistics contained in the Chapter I includes: main indicators of macroeconomic developments in the annual and monthly dynamics for the current year; gross domestic product (GDP) in constant prices and its growth rates by quarters and usage of GDP; trends in physical volume of industrial production in monthly dynamics (total, by sections and economic purpose); consumer prices trends in annual and monthly dynamics; developments of overall consumer prices (in total and by components) in monthly dynamics for current year; producer prices of industrial products for domestic market and for export in annual and monthly dynamics; developments of exports in monthly dynamics; prices of external trade in annual, quarterly and monthly dynamics; developments in Foreign direct investments in quarterly dynamics; external debt in annual dynamics and in last month of current year; balance of payments in annual and monthly dynamics; monetary survey by years; main monetary indicators, household savings and foreign exchange reserves, total number of employed and unemployed and average net salaries and pension benefits (in dinars and annual real growth rates) in annual and monthly dynamics; an overview of privatization results in annual dynamics and for a specific period of the current year for which there are available data; an overview of trends of indices; market capitalization and foreign investors participation in total turnover on Belgrade Stock Exchange; an overview of turnover of securities on the Belgrade Stock Exchange; an overview of auctions of Republic of Serbia treasury bills in annual dynamics and on daily

2. Fiscal statistics (tables in Chapter II Fiscal Developments) is based on the GFS methodology and data of the Ministry of Finance, Treasury Administration and Public Debt Administration.

Starting from Memorandum on the Budget and Economic and Fiscal Policy for 2009 with projections for 2010 and 2011, IMF methodology – Government Finance Statistics is used to present and create projections for fiscal aggregates. All data in this bulletin have been computed by using the same methodology basis.

The main objectives of alignment with methodology of Government Finance Statistics is the possibility to perceive macroeconomic implications of fiscal policy. It is particularly important to perceive the influence of fiscal policy on domestic demand, hence every item of revenues and expenditures is considered from its aspect, regardless of its classification in accounting.

Here is a comparative overview of the previous and the new methodology of government finance statistics.

- 1. The level of observation is consolidated government sector that comprises the following levels of government: the central government budget of the Republic of Serbia and Social Security Organizations; local government budget of the Autonomous Province of Vojvodina and budgets of municipalities and towns; public road company Putevi Srbije and Koridori Srbije Ltd.
- 2. Coverage of data: beside budget resources, application of this methodology in computation of fiscal aggregates includes other sources of financing a part of own resources of government bodies, donations, loans and privatization receipts. The previous coverage included only budget resources and expenditure financed from budget resources.
- 3. The method of computation of results: The deficit or surplus of consolidated government sector is the difference between revenues and overall expense plus net budget borrowing. The category of net landing is treated as an expense in cases when the purpose of the spending is implementation of a government policy, while if expense is made in order to manage liquidity, it becomes a financing item, without any influence on the government's result.
- 4. The difference in accounting and statistical coverage of particular items of expenditure: in view of the primary objective gaining insight into macroeconomic implications of the fiscal policy, particular items of the expenditure, e.g. repayment of debt to pensioners, which is treated in accounting as a part of repayment of debt without influence on the result, statistically is treated as transfer to citizens and on ground influences increase in domestic demand. Mobile telephony license, treated in accounting as current non-tax revenue, in view of its one-time character is now treated as part of financing.

With advancement of accounting base — i.e. with transition to accrual basis in recording government transactions — conditions will be created for further enhancement of government finance statistics methodology and for alignment with the EU (ESA 95).

The Ministry of Finance is responsible for collection and processing of fiscal data. Fiscal statistics includes: consolidated balance of the general government sector and particular balances, i.e. budget of the Republic of Serbia (central government), budget of AP Vojvodina, budget of local authorities, financial plans of social

security organizations, public road company Putevi Srbije and Koridori Srbije Ltd.

General government. General government sector comprises all the levels of government in the country. Subsectors that form general government include: central government - budget of the Republic of Serbia, provincial government - AP Vojvodina, local government- municipalities, towns, social security funds, public road company Putevi Srbije and Koridori Srbije Ltd. Fiscal statistics, with regard to the individual state subsectors, is especially significant for the understanding of interrelation between different governmental levels, separation of functions as well as division of revenues. It is important to determine the amounts and the flow of transfers between governmental levels, which is achievable only owing to the individual and separate balances of all However, only the data governmental levels. presenting the entire general government may provide the information concerning the amount of fiscal operations of the state, consumption of the state and its influence aggregate demand and on macroeconomic stability, reallocation of collected funds originating from other economic sectors, burden of taxation of the economy, tax structure etc.

Central government-budget of the RoS. Central government comprises all the ministries, agencies, and other special organizations defined as direct or indirect republic budget beneficiaries.<sup>5</sup> The Government may define and achieve set goals concerning economic policy at the level of the entire country, primarily through the implementation of certain measures and programmes by the means of the budget of central government. Other governmental levels do not economic policies concerning the national level. The more centralized is the country, the more significant are the data related to this level of government<sup>6</sup>.

AP – Vojvodina. Budget of AP Vojvodina comprises all governmental authorities and other special organizations defined as AP Vojvodina budget beneficiaries.

**Local self-government**. Data concerning local self-government relate to the data collected in all cities and municipalities constituting the local self-government system. The coverage of data at the level of cities or municipalities relate to all direct or indirect budget beneficiaries of a city or a municipality. The budget beneficiary of a city or a municipality is an institution primarily financed from the funds originating from the local government. Local government controls its business activities and it performs certain functions through the institution<sup>7</sup>.

<sup>5</sup> Indirect republic budget beneficiaries are primary and secondary schools, faculties, scientific institutes, social welfare institutions, cultural institutions and other institutions partly financed from the Republic budget.

**Social security organizations.** Social security organizations include the Pension and Disability Insurance Fund, Republic Health Insurance Fund, Military Health Fund and National Employment Service.

Public road company Putevi Srbije. Revenues of Putevi Srbije have the character of public revenues (toll and transfers from republican budget), and repayment of a large part of the company's debt takes place from the Republic of Serbia budget, therefore the company is treated as a part of the general government sector.

**Koridori Srbije LTD.** are a Government owned company, responsible for investment in road infrastructure.

#### **BASIC FISCAL AGGREGATES**

Basic fiscal aggregates are total public revenues, total public expenditures, and the result of the difference between these two categories, which is defined as surplus or deficit in the consolidated balance of general government or balances of individual governmental levels.

**Total public revenues** are divided into two basic categories: current revenues and yield on capital.

**Current revenues** are divided into tax and non-tax revenues.

The basic characteristics of **tax revenues** is their mandatory nature and non- existence of any direct reciprocal service for the payment of taxes. The state collects taxes finances certain state functions from collected funds. The benefits related to certain functions cannot be directly connected to an individual who paid the tax.

**Income tax** comprises wage tax, as well as taxes on other forms of earnings of individuals, beside the wages.

Corporate income tax comprises, in addition to corporate profit tax narrow meaning of the term, also tax on dividends paid to the residents and non-residents, as well as the tax on interests, royalties and capital incomes realized by non-residents.

**VAT** comprises national VAT, import VAT, and the arrears of turnover taxes from the previous years.

**Excise duties** present consumption taxes concerning specific products such as oil, tobacco, coffee, alcoholic beverages etc.

**Customs duties** and other import duties comprise revenues from duties paid for import of goods and services, with the exception of the VAT on imported goods that is included in VAT revenues.

Other tax revenues comprise taxes on use, ownership and carrying of goods, and other taxes. The property tax of local government is included in the category of other tax revenues in the general government consolidated balance.

revenues and expenditures, they are included in the local government level.

Ministry of Finance

<sup>&</sup>lt;sup>6</sup> The largest amount of tax revenues, apart from property taxes, pertains to the budget of the RS. Income tax is renounced in the legally defined percentage to the local self-government, whereas a part of the revenues collected from income taxes realised in the territory of Vojvodina pertains to the AP Vojvodina. This shows the importance of the central governmental level in the country.

<sup>&</sup>lt;sup>7</sup> Primary and secondary schools pertain to the central government as their financing is mostly provided from that level. A part of material expenses of schools is financed from local self-government funds but not in the extent sufficient for pertaining of these institutions to the local government. Pre-school institutions are local budget beneficiaries. When reviwing data regarding their Public Finance Bulletin, October 2018

Non-tax revenues are heterogenic category of revenues including property revenues (collected interest, rental fees) compensations, taxes, fines and other revenues that cannot be classified. As opposed to tax revenues, non-tax revenues imply the existence of reciprocal favor for the sum collected - e.g. the compensation for the usage of natural resources. However, there are revenues that may by their characteristics be classified as non-tax revenues, but without implying the reciprocal favor for the collection. Fines are a typical example of this sort of revenue.

Capital revenues comprise only revenues originating from the sale of capital goods, as well as the capital transfers from non-governmental institutions. The sale of capital goods imply the sale of non-financial assets, buildings, inventories and state-owned land.

**Total expenditures** in the Bulletin of Public Finance are presented according to the economic classification emphasizing the type of expenses, i.e. its economic characteristics and influence of state consumption on the market of goods and services, financial market and reallocation of income. In addition to the economic classification of expenditure, there is also a functional classification emphasizing the function the state performs by using of funds for specific purposes<sup>8</sup>. The Bulletin of Public Finance does not contain expenditures classified in accordance with the functional classification.

Overall expenditure is divided into current expenses, capital expenses and net budget borrowing.

**Current expenses** present final budget outflows, and are not intended for the procurement of non-financial assets.

Compensation of employees comprise (net) salaries of employees including income tax and contributions paid by employees, contributions paid by employers, as well as other fringe benefits (transport allowance, sick leave allowance for the period up to 30 days etc.).

**Procurement of goods and services** comprise payments related with coverage of business expenses (electricity, phone bills etc.), business trips, services contracts, current maintenance and procurement of material.

**Repayment of interests** is divided into repayment of interests on domestic debt, interests on external debt, interests based on activated guarantees and accompanying borrowing expenses.

**Subsidies** comprise all the funds transferred to the economic sector (public enterprises, registered agricultural holdings etc.) for the coverage of running expenses or/and the grant intended for current business activities.

Social insurance and social welfare expenses include payments to person insured with social security organizations (pensions of beneficiaries of Pension and Disability Insurance Fund, sick leave benefits paid by the Republic Health Insurance Fund, unemployment benefits paid by the National Employment Service,

8 Division of expenditures according to the functional classification is the following: general public services, defence, internal security, economic affairs, environmental protection, housing construction and municipal services, healthcare, recreation, culture and religion, education and social welfare.

and religion, education and social welfare.
Public Finance Bulletin, October 2018

Repayment of debt to pensioners, children and family benefits, benefits for war-disabled persons, pregnancy leave benefits, housing benefits, Military Health Fund expenditures etc.

Other current expenses include grants to non-governmental organizations, mandatory levies and penalties imposed by one governmental level to another, fines and penalties imposed by courts and judicial bodies, injury compensations or compensations for damages incurred by natural disasters, and damages incurred by the public bodies.

Capital expenses comprise all the payments intended for the procurement of non-financial assets, construction of buildings and infrastructure, procurement of equipment and inventories and the purchase of land.

**Net lending** are expenses for purchase of financial assets whose objective is implementation of a particular government policy.

General government consolidated balance contains consolidated revenues and consolidated expenditure.

Consolidated revenues are aggregate revenues of individual governmental levels, but in the consolidation procedure, transfers received from other governmental levels are excluded. In the consolidation procedure, benefits paid by general government in the function of employer are excluded from the revenues of mandatory social insurance organizations.

Consolidated expenses present aggregate expenditures of individual governmental levels, while in the consolidation procedure, transfers provided from one governmental level to another are excluded. In the consolidation procedure, expenditures paid by general government in the function of employer are excluded from the expenditures.

**Consolidated surplus/ deficit** is a difference between consolidated revenues and consolidated expenditure.

**Balance surplus/ deficit of individual governmental levels** is a difference between total revenues and total expenditures, at a particular governmental level.

**Earnings** not included in the revenues of general government present earnings based on domestic and external borrowing and earnings based on the privatization of state-owned enterprises.

**Expenses** that are not included in general government expenses are those for repayment of principal of national and foreign debt and expenses for purchase of financial assets that cannot be classified as net lending.

**3.** Public Debt Statistics (Tables in Chapter III – Public Debt) is based on the data of the Republic of Serbia Treasury Administration. The public debt of the Republic of Serbia consists of direct liabilities (received loans) and indirect liabilities (issued guarantees).

#### 1. Direct Liabilities

Direct Liabilities of the RoS are those incurred on the basis of the loans taken. Direct liabilities, depending on the creditor, constitute the following: (1) domestic debt and (2) foreign debt.

**Domestic Debt** consists of liabilities carried over from the past, and liabilities stemming from short-term treasury notes. The largest share in the domestic debt is the one of the frozen foreign currency savings, which also constitutes the largest individual debt in the public debt of the RoS.

**Foreign Debt** consists of (1) rescheduled old debt and (2) new borrowing.

The rescheduled debt consists of: (1) the debt towards International Bank for Reconstruction and Development (IBRD, A, B, C), (2) debt towards the Paris Club of Creditors, (3) debt towards the London Club of Creditors, (4) debt towards Council of Europe Development Bank (CEB).

#### 2. Indirect Liabilities

Indirect liabilities of the RoS are those incurred on the basis of the issued guaranties. Due to the fact that the guarantees that have been issued up to date were related with loans taken from foreign creditors, total indirect liabilities fall under the category of foreign debt.

#### **Public Debt to Gross Domestic Product Ratio**

Debt to GDP ratio is one of the most important indicators of the public debt sustainability and one of the convergence criteria for joining the EMU.

#### **Structure of Interest Rates**

The ratio between the fixed and variable interest rates in the public debt of Serbia is distinctly favorable. High share of the fixed interest rates provides high level of predictability of future liabilities arising from the interest and thus the Republic of Serbia is not exposed to the interest rate risk.

## The Public Debt Currency Structure

The public debt consists of different currencies. The largest share, however, is the debt denominated in Euros and US Dollars.
